"Innovation in healthcare isn't about the latest technology—it's about making care more human, more accessible, more affordable."

— Michael Cabrera

About USRad

Mission: Expand access to affordable, high-quality imaging—with transparency, empathy, and innovation at every step.

Vision: A healthcare system where no one delays care due to confusion or cost, and where imaging centers thrive through shared values.

What We Do: USRad offers a trusted network of high-quality, affordable imaging centers featuring advanced technology, board-certified radiologists, extended appointment times for personalized care, and priority scheduling typically within days, not weeks.
